Lisa Friedman
Needle Chasers of Chevy Chase
4441 Harrison Street NW
Washington, DC

Dear Lisa and friends at Needle Chasers of Chevy Chase,

Thank you for your generous donation of 50 preemie blankets and incubator covers. Your contribution helps boost the spirits of hundreds of children and their families and puts priceless smiles on so many faces.

As we all know, our current economic climate is recorded as one of the most difficult in economic times in history, and affects virtually everyone. We in Volunteer Services are always so incredibly touched by the generosity of our donors. However, this year in particular, it is difficult to put into words how much of an impact you have on our patients and their families; your commitment to giving is an inspiration to us all. No matter how difficult times become, our community partners always make room in their hearts for Children's National Medical Center; this is truly the greatest gift of all.

The impact of your generosity extends beyond the walls of Children's National; you touch the lives and hearts of individuals and families around the region, the nation, and the world.

Thank you again from the bottom of our hearts. You truly make a difference

With much gratitude,

Terry Orzechowski
Executive Director, Consumer Relations/Ombudsman
